October 6, 2014

On September 27, 2014, Peter Hildebrand chatted with the hosts of Renovate & Build on AM650 about the Exchange project. The Exchange is an ongoing LEED Platinum office tower in downtown Vancouver that will achieve many architectural firsts, such as: being the first LEED Platinum office tower in Canada and being the first heritage LEED platinum designated building in Canada.

Peter discusses many of the architecturally significant aspects of the project and their related complexities. We're so happy to be able to share the full interview with you here.
